pleted its labors to-night and adjourned dollar has been as good as gold. We are the committee during its session. The tariff plank is first in the platform.

The money plank, which has caused so that sent by the Associated Press to-day. with a single modification, after the words declaring against the "free coinage of silver except by international agreement" the following sentence: "Which we pledge ourselves to promote." This plank was adopted by a vote of 8 to I, Senator Teller, of Colorado, alone voting in the negative.

Following is the financial plank in full: "The Republican party is unreservedly declaration for the maintenance of the law providing for the resumption of the parity of the different kinds of money than did the first draft. This specie payments, and since then every dollar has been as good as gold. We are unalterably opposed to every measure calculated to debase our currency or impair the credit of our country. We are, therefore, opposed to the free coinage of silver, except by international agreement with the leading commercial nations of the world, which we pledge ourselves to promote, and until such agreement can be obtained the existing gold standard must be preserved. All our silver and paper currency now in cirgold, and we favor all measures designed to maintain inviolably the obligations of whether coin or paper, at the present

The preamble to the platform refers to the four years of Democratic rule compared to the thirty years of Republican rule as a good ground to appear to the American people. The four years of unrestricted rule of the Democratic party is ounced as calamitous and a record of acity. An adverse balance of trade, the deficit in the treasury and piling up of the public debt and the menace to the reemption fund is denounced. The effect of permocratic policy has been to blight in-justry and has caused prolonged depres-on, with disaster at home and dishonor clared: "We are not pledged to any particular schedule," but the question of rates should be governed by conditions. The restoration of discriminating duties for the upbuilding of the merchant marine is fa-vored. A plank favoring liberal reciprocity is incorporated and the repeal of the reciprocity agreements is condemned. The plank on foreign affairs favors the independence of Cuba and control of Hawaii by the United States, and indorses the

There are planks favoring the extension of civil-service reforms; a declaration against the use of money for sectarian purses; in favor of labor arbitration; for liberal pensions and the building of the Nicar-agua canal by the United States govern-

The following plank was adopted by the subcommittee for submission to the committee on resolutions and will doubtless

appear in the platform:
"We favor restoring the early American
policy of discriminating duties for the upng of our merchant marine and the protection of our shipping in the foreign carrying trade, so that Americans shipping the product of American labor employed in American ship yards, sailing under the stars and stripes and manned, officered and owned by Americans, may regain the car-rying of our foreign commerce."

ACTION OF THE COMMITTEE.

Foraker Elected Chairman and General Wallace Secretary.

ST. LOUIS, June 16 .- The committee on resolutions met at the Lindell Hotel at 2:30 o'clock this afternoon and elected Senatorelect Foraker, of Ohio, chairman, and Gen. Lew Wallace, of Indiana, secretary.

When the committee convened some time was spent in conferring together, during which time there were three groups, Foraker, Lodge and Teller being the central figures, respectively, in these clusters. Over half an hour was spent in a general conbeen referred to different members. Some members had their pockets full of papers. Even the silver men were divided on the

Awarded Highest Honors-World's Fair,

MOST PERFECT MADE A pure Grape Cream of Tartar Powder. Free from Ammonia, Alum or any other adulterant. 40 YEARS THE STANDARD.

phraseology of their plank, and each silver member of the committee had his own version. It was seen at the start that Lodge, Foraker and others were co-operating together. Senator Lodge called the committee to order and presented the name of Senator Foraker, of Ohio, for chairman. The silver men presented the name of Senator Dubois, of Idaho. Then Charles E. Pryor, Foraker's law partner, who was with him, was made teller and temporary secretary. The roll was called, showing thirty-nine present and twelve absent, and an official list of the membership was made up before the States were called on the vote for chairman. This roll call resulted: Foraker, 35; Dubois, 4. The former was declared by Senator Lodge the chairman. The four votes cast for Dubois were those of Messrs. Teller of Colorado, Hartman of Montana, Teller of Colorado, Hartman of Montana, dott of North Carolina, and Cannon of

When his name was reached Senator Dubois stated that under ordinary circum-stances he would cast his vote for Gover-TARIFF PLANK IS PUT FIRST stances he would cast his vote for do on account of the high eseteem in which he held Mr. Foraker, and he was, he said, only constrained from acting in accordance with his personal inclination by the principle invoived in the contest. On account of this principle he would withhold his vote. Governor Foraker responded with similar remarks as to his position towards Senator Dubois, and also declined to vote.

When Mr. Foraker's, election was announced he took the chair, acknowledging the compliment with only a few words. "I sincerely thank you for the honor you have conferred upon me," he said, "but I think I can best show my appreciation of the compliment by immediately proceeding with the business which we have been elected to perform." With this he called for suggestions and the business for suggestions and the business of the meeting began.

GEN. LEW WALLACE HONORED. General Lew Wallace, of Indiana, was Merriam, of Minnesota; Fessenden, of Con-Massachusetts; Patterson, of Illinois; War-

country. Mr. Foraker replied that he did not consider geography in the make-up of the committee, but appointed men to represent the different ideas on the currency question as nearly as possible. The motion to increase the committee carried, and Mr. Burleigh and Mr. Lauterbach, of New York were added. The committee than adversarial special York, were added. The committee then ad-journed until 8 o'clock, pending the re-Bible. Mrs. Blake and some of the ladies

subcommittee to draft the platform he stated that a meeting of the subcommittee would be held at 5 o'clock. It was quite generally understood that the main work plank, but there has been little doubt of the form of the declaration on this subject since last night, as the indorsement of a majority of the subcommittee had been secured for a plank practically the same as that sent out last night. As modified, the resolution is as follows:

"The Republican party is unreservedly ST. LOUIS, June 16 .- The subcommittee | for sound money. It caused the enactmen unalterably opposed to every measure cal-culated to debase our currency or impair the credit of our country. We are there-fore opposed to the free coinage of silwith the leading commercial nations of the world, and, until such agreement can be obtained, we believe the existing gold standard must be preserved. All our silver and paper currency now in circulation must be maintained at parity with gold, and we favor all measures designed to maintain inviolable the obligations of the United States, and all our money, whether coin or paper, at the present standard—the standard of the most enlightened nations The changes made are not entirely those of gy. The expression "we favor the use of silver as currency," etc., was eliminated in the last draft and the form

changed so as to put the declaration on the question of silver coinage in a negative way. It also makes more positive the resolution had been regulated among the members of the committee and indorsed by a majority of them, when the committee makes specific the demand that an inter-national agreement to be binding must be with "The leading commercial nations of he world," which qualification was omit-

ted from the original draft. THE SUBCOMMITTEE'S WORK. The subcommittee convened promptly at 5 o'clock in Governor Foraker's room at the St. Nicholas Hotel, all the members being present. They decided to grant no hearings, but announced their willingness to receive suggestions in the shape of prepared resolutions. Several of these were sent in addition to those which had been offered at the meeting of the full committee to-day. Among these was the following as representing the expression they desired to secure in regard to beet sugar: "We this country. The Republican party favors

such measures of encouragement and pro-tection as will speedily lead to the produc-tion on American soil of all the sugar which the American people use and for which they pay to other countries more than \$100,000,000 annually." When the hour arrived for the convening of the session of the committee on resolutions Messrs. Fessenden and Warmouth of the subcommittee appointed to draft the their labors and asked for an adjournment until 10 o'clock to-morrow. The subcom-mittee had been in session from 5 until 8 mittee had been in session from 5 until 8 he was not an advocate of the policy emboricle, but had not nearly completed its labors. It appeared then as if the combeen asserted that the party would accept mittee might be compelled to spend the en-tire night in putting this declaration of party-principles into acceptable shape. The

ommittee first took up the financial question and Governor Merriam, of Minnesota, offered the gold-standard declaration given above. Senator Teller, the only representative on the committee of the free-silver element, offered as substitutes several ropositions providing for the free and unimited coinage of silver. An animated though somewhat one-sided discussion followed, the Colorado Senator holding up the silver end alone. All of the free-coinage propositions were defeated by the uniform vote of 8 to 1. The gold-standard plank proposed by Governor Mer-riman was then voted upon and adopted by the same vote, but with the understanding that the action taken should, for the time, be regarded as merely tentative and

subject to reconsideration in case there should be a desire manifested to change the phraseology in any respect.
The beet sugar declaration was adopted after comparatively little discussion and the Cuban question taken up on the basis of resolutions presented by Benator Lodge. The form of these resolutions was not definitely determined before the hour of 8 o'clock arrived, but the committee was unanimous for a declaration, having no doubt of very positive action in behalf of the course of the Cubans. This plank will probably be coupled with a strong pronouncement for a distinctive American

The form of the tariff plank was also undecided at this hour, though a member of the committee declared that there was no doubt of a very strong expression upon

The subcommittee did not adjourn for dinner nor did it close its work when Messrs. Fessenden and Warmouth were dispatched to notify the full committee of the incomplete condition of the subcommittee's work.

DEMANDS OF NEGROES. Among the resolutions offered for the lowing by H. V. Cashin, of Alabama:

"We indorse the measure known as the Blair educational bill, to which the Repub-lican party has pledged itself in its national platform, but in view of the disfranchisement in some and efforts now being made in other Southern States to disfranchise American citizens of both races who have been heretofore deprived of the opportunity of education while steadfastly denying them and their children adequate common schools wherein to remove the disqualification of illiteracy for the future, we insist that the great Republican party, which de-stroyed slavery, shall, in continuation of that sacred work, extend national aid to the States to such an extent as should be found necessary in order to secure a common school education to the children of all the people so that liberty and intelligence shall forever displace slavery and ignorance throughout the land and the Republican party perpetuated

"We favor the appropriation of a large sum, approximating \$3,000,000, that has ac-cumulated in the United States treasury belonging to the unknown heirs of colored soldiers now deceased for the establishment of a national industrial school for the ducation of colored youth

"We proclaim our unqualified condemna-tion of the uncivilized and barbarous prac-tice exercised chiefly by those of our white fellow-citizens in the Southern States, well known as lynching or the killing of human brings, suspected or charged with crime, without process of law."

The following, written by Mr. Henry B.

Blackwell, husband of the late Lucy Stone, of Boston, was presented by Senator

Lodge:

"Resolved, That the Republican party is mindful of the ights and interests of women, protection of American industries, including equal opportunity, equal pay for equal work and protection to the home. We favor the admission of women to wider spheres of usefulness and welcome their co-operation in rescuing the country from Democratic mismanagement and Populist

At the request of Senator Foraker James Creelman prepared the following sugges-tion for use in constructing the Cuban plank in the platform: "The government of Spain having lost control of Cuba and being unable to pro-

tect the property or lives of resident American citizens or to comply with its treaty obligation we demand that the armed force of the United States shall be promptly interposed to restore peace in the island. We hold it to be necessary to our national We hold it to be necessary to our national peace and prosperity that the people of Cuba shall achieve political independence and we pledge to them our sympathy in their noble struggle against the corrupt and barbarous Spanish monarchy."

Mr. Creelman, in a conversation with Senator Lodge, who is drafting that part of the platform which relates to foreign affairs, said that it was a mistake to look at the question from the Cuban standpoint and the convention ought to regard it from and the convention ought to regard it from a purely American standpoint. The recognition of Cuban belligerency might be questionable, but no one could deny the right of the United States to intervene in be-

half of their own interest. PETITIONS FROM WOMEN. At 8 o'clock to-night the forty-two members of the committee on resolutions met pursuant to adjournment. Governor Warmouth and Mr. Fessenden, from the subcommittee, were present and said that no unanimously chosen secretary and a reso- report could be made until to-morrow at lution was carried to appoint a subcommit- 10 a. m. In the meantime the committee tee of seven to draft the platform. Chair- remained in session, with Gen. Lew Walman Foraker named as the committee lace in the chair, to hear the delegation in waiting. Mrs. Lillie Devereaux Blake, necticut; Teller, of Colorado; Lodge, of chairman of the national woman's suffrage mouth, of Louisiana, and the chairman.

Mr. Burleigh, of Washington, moved to enlarge the committee on the ground that it should represent every section of the country. Mr. Foreker replied that he did not be soon association, and others.

When Governor Foraker announced the while Mrs. Carnell was speaking, but returned afterward to hear Mrs. Cairns's re-Mrs. F. H. Ingalls, the Missouri district

president, presented the appeal of the Woman's Republican Christian Temperance Union for a temperance plank. Mrs. Helen Foster, of Kansas, spoke at length for the recognition of the Woman's Christian Temperance Union and also of the woman suffragists. General Blackwell, of Boston, spoke for the recognition of the women. of the National Federation of Colored Men. and other acts of injustice to his race. " were considered and referred to the subcommittee. General Wallace was delegated to deliver the petition. The committee adjourned at 10 p. m.

TELLER'S PROPOSITIONS. The subcommittee to-night decided to give out for publication the financial plank of the platform adopted by the subcommittee. The plank has been slightly modified | Haute, was accepted and M. L. Haines, of as published in the earlier dispatches. Senator Teller, of Colorado, offered four propositions in the subcommittee, first, for free and unlimited coinage of silver at the ratio of 16 to 1, then for the free coinage of the American product. The first proposition

"The Republican party favors the use of both gold and silver as equal standard free unrestricted and independent coinage of gold and silver at our mints at the ratio of 16 parts of silver to one of gold." When this was voted down Mr. Teller offered the following, proposed by Senator Cannon, and intended to combine silver

ployment and higher wages to the toilers and upon this basis the great of protection is to give constancy of emand upon this basis the great men of the party have stood and the party's victories have been achieved, and "Whereas, The effect of the single stand-

ard in this country is to make employment insecure and to decrease the wages of the toilers by decreasing the prices of human "Whereas, Since the single standard and protection are irreconcilable it follows that a party cannot reasonably declare for both and attempt to achieve the purposes of both, and if the Republican party shall de-vote itself to the single gold standard it will be led to the fatal policy which commends Americans to buy where they can buy the cheapest, and "Whereas, If the Republican party is still

to continue as the advocate and exponent of protection to the American people must logically oppose the single gold standard policy; now therefore, be it "Resolved, That the Republican party, in the great truth that its highest mission is to advance the interests of the toilers of the United States, hereby reaffirms the doctrine of protection to American industries, and resolves to use all its power to achieve bimetallism, being the free, unrestricted and independent coinage of silver at our mints as they were coined previous to 1873." These resolutions having been disposed of by the adverse vote of 1 to 8, the Colorado coinage of the American product. In doing so he said that the resolution was not his that he offered it by request. He said that silver coinage restricted to the American product. Hence he decided that the committee should pass upon it. As for himself he would only vote for it in lieu of absolutely free coinage, which had been rejected. This resolution was worded as fol-

The Republican party pledges itself to the free coinage of all silver which may be produced in this country and offered at the mints at the ratio of 16 parts of silver to one of gold."

This resolution was defeated by the same vote as the preceding ones, there being eight votes against to one for. The following resolution for equal suf-

frage for women was presented by Senator "The Republican party favors such con-stitutional amendment and such legislation as will accord to the women of this country the equal right of suffrage. Mr. Teller's vote was the only one given for this proposition

Mr. Teller will submit a minority report on the money plank, but not upon any other features of the platform. The Colorado Senator says that the subcommittee was made up unfairly; that the silver med should have had more than one man on the subcommittee, as their representation entitled them to it. Mr. Teller will carry his fight to the full committee to-morrow but he has little hope of success, as he does not believe there are more than ten or fifteen men on the full committee who will vote against the subcommittee resolu-

It is stated by the majority of the subthat the resolution will be adopted by the committee, but give it out as a result of their own conclusions which they would submit to-morrow. It was stated that no other portion of the platform would be given out until presented to the tull committee. The subcommittee expected to conclude its work to-night or early to-morrow morning, and will endeavor to report to the full committee to-morrow at 10 o'clock. The committee has agreed to embody in the platform a resolution declaring for the protection of the sugar industry. The wording of the resolution will be similar to that offered by the sugar

Poor Showing by Stiverites. ST. LOUIS. June 16 .- The silver men were the Territorial representatives were absent and the California and Wyoming men voted the last two that the silver men complain. They say that as these two States instructed for the free coinage of silver at the raito of 16 to 1, they had a right to expect their support for the free-silver candidate

for temporary chairman. This dissatisfaction made itself manifest in the committee when Mr. Burleigh ofered his motion to increase the number of he subcommittee on platform from seven
